

(Installation MUST be completed BEFORE using *SuccessMaker at Home*)

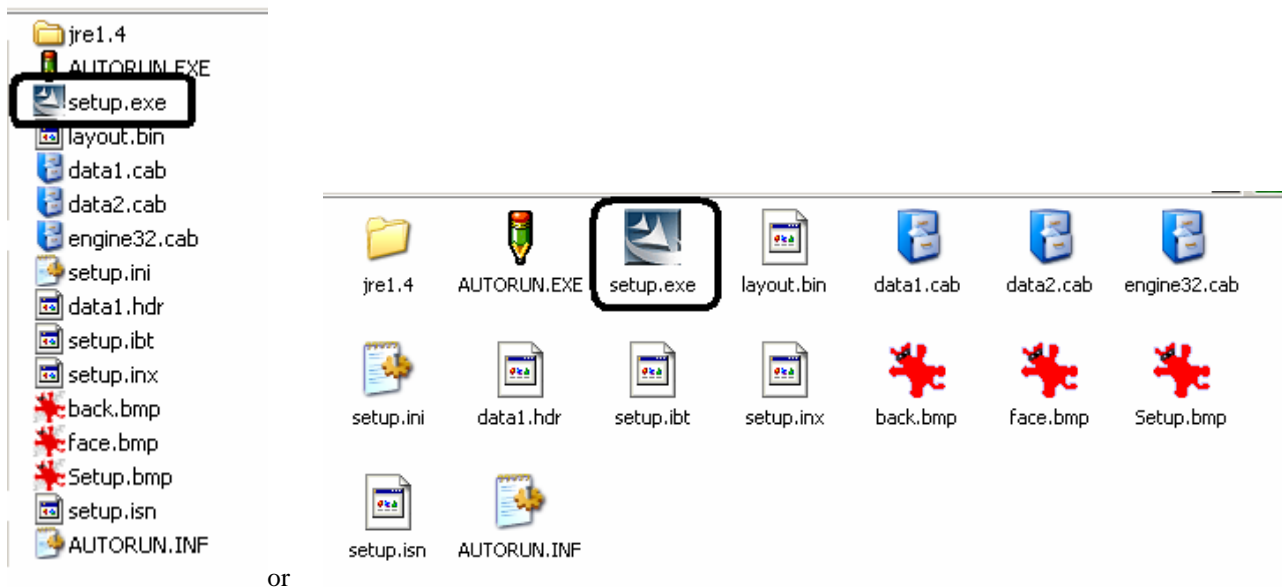

1. Insert the **Courseware Setup CD** into the CD-ROM drive of your computer
2. Double-click the **My Computer** icon on the desktop

3. Double-click the **CD-ROM Drive** icon/SMe Courseware CD to display the contents of the disk.

4. Double-click the **setup.exe** file to begin the installation.

5. The InstallShield Wizard Welcome screen displays. Click Next.
6. Setup searches for Java Runtime Environment (JRE) version 1.4.2_03.
 - a) If JRE version 1.4.2_03 is found on your workstation, a message displays stating that this JRE version will be used. If a version higher than 1.4.2_03 is found, the higher version will be used. Click **OK**.
 - b) If JRE is not installed or the version installed is lower than 1.4.2_03, setup will install JRE 1.4.2_03. After JRE 1.4.2_03 is installed on your workstation, a message displays stating that this JRE version will be used. Click **OK**.
7. The Setup Status screen displays. The courseware installation may take several minutes. During installation, two dialog boxes display stating that .dll files were successfully registered to your workstation. Click **OK** to proceed.

8. At the end of the installation, you will be prompted to select between using the *SuccessMaker* Courseware on CD or DVD. Choose DVD, then click **Next**.
9. When the setup is complete, select **Yes, I want to restart my computer now**, and click **Finish**. The computer will restart.
10. Close the CD-ROM drive contents window and remove the **Home Access Courseware Setup CD** from the CD-ROM drive.
11. You may now use *SuccessMaker at Home*
 - >> Follow the STUDENT USE handout and use the STUDENT user name and password
 - OR
 - >> Follow the PARENT USE handout and use the PARENT user name and password
